

Take payments for your school faster, more efficiently

How the EdSmart + School EasyPay integration works

An easy, tailor-made solution used by leading schools for collecting all types of school fees, School EasyPay sits within the EdSmart platform, so you can enable and configure payment options simply when setting up your EdSmart forms.

EdSmart + School EasyPay means there's no need to take offline or separate payments, and there's absolutely no cost to the school if payment processing fees are passed on to parents. Payments are taken quicker, more efficiently, and with remarkably reduced hours spent on reconciliations and chasing overdue amounts (on average two days per month).

"It has made the communications process much easier as I can see both the payment and permission simultaneously.

That's where integrations like this work so well. Seeing both the permission and payment on EdSmart means that I do not need to log into School EasyPay or ask accounts to check that a payment has been made.

That takes an entire step away!"

The process between School EasyPay and EdSmart is smooth and mirrors manual procedures in a digitally automated manner.
